

"CH" CONTINUOUS HINGE CLAMP COVER BOXES

For those installations where a continuous "plano" hinge is required, the Hoffman "CH" line is ideal. They are fabricated from 14 or 16 gauge steel and feature welded seams, external mounting feet, and gasketed cover for a positive oil and dust tight seal. Standard finish is grey hammer-tone enamel, optional panel is white enamel and must be ordered separately. Boxes are hinged on the long side. When ordering special "CH" boxes be sure to specify if hinge is on right side or left side and also which dimension is hinged.

"CH" Continuous Hinge Cover

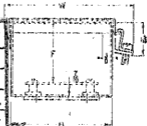

Section M-U
