Light Pollution Issues in Flagstaff, Arizona

JEFFREY HALL, DIRECTOR
LOWELL OBSERVATORY
Anderson Mesa

Lowell Obs. Discovery Channel Telescope

USGS Flagstaff, Northern AZ. Univ.

NOFS
Key current issues

1. Local/regional growth during major astronomical investment
   • Substantial need in Flagstaff for affordable and student housing
   • Current OLC needs updating (zoning issues, LEDs)

Rendering courtesy Core Campus
2. Rapid growth of Phoenix metro
   • Ongoing attempts to expand outdoor electronic advertising in AZ
Key current issues

3. Preserving the Flagstaff dark-sky tradition
   - Dark skies are not just about astronomy, but are part of Flagstaff’s culture
Key current issues

4. Making the LED transition
