

Authors of papers that make use of DECam data products should provide a special acknowledgement. This acknowledgement is a shortened version, which should only be used for submissions to Letters journals, such as **Phys Rev Lett** or **ApJ Letters**. Regular-length articles should use the full-length version of the acknowledgement.

If you make use of DES data products produced by the *DES Collaboration* the first line should be:

This project used public archival data from the Dark Energy Survey (DES).

Or, if you make use of DECam data products from NOAO-awarded community programs, as produced by NOAO, the first line of the acknowledgement should be:

This project used data obtained with the Dark Energy Camera (DECam), which was constructed by the Dark Energy Survey (DES) collaboration.

In either case, to the initial line add the following:
