

Kitt Peak National Observatory Contributions, 1959–1971

Most of the Kitt Peak National Observatory Contributions are preprints/reprints; records for them and digital access to the published articles are available in ADS.

This listing provides the ADS bibcode (when available), Contribution No., Title, and Author(s) for each Contribution. Where available, reprint information is provided for publications without ADS records and for publications without a link to the document in the ADS record. Digital files for Contributions 10 (Schulte and Crawford) and 440 (Michie) are available on the NOAO Library website.
